SOFT SKILLS

- Autonomy
- Problem-solving
- Clear communication
- Proactivity
- Time management
- Adaptability

LANGUAGES

- Español – Native
- Catalán – Native
- Inglés – C1

ABOUT ME

Fourth-year Computer Engineering student with experience in developing technical projects and applying modern technologies. I actively engage in teamwork and enjoy contributing throughout all phases of development. Interested in Mobile Development, FullStack, QA, and Cloud, I am looking to continue growing in dynamic environments where I can add value and develop as a professional.

ACADEMIC BACKGROUND

- **Bachelor's Degree in Computer Engineering**
 - 📍 Autonomous University of Barcelona · 2022 - 2026
 - Minor in Software Engineering
- **Technological Baccalaureate**
 - 📍 Institut de Vacarisses, Spain · 2020 - 2022
 - Graduated with Honours

FEATURED PROJECTS

- **MuscleApp | Workout Tracking App**
Flutter, Firebase, Dart | Grade: 10 | Project with Active Users
 - Team leader of an 8-person group.
 - I coordinated the team using Scrum methodology, organizing sprints, meetings, and managing tasks in Jira.
 - I designed the architecture, developed the code, and performed quality testing.
- **IKEA's web Testing**
Java, Selenium, Gherkins, Cucumber
 - Simulation of real-world tests on the IKEA Spain website.
 - End-to-end testing using natural language.

NON-TECHNICAL WORK EXPERIENCE

- **Hospitality worker**
 - 📍 Churrería Roc Blanc · 2022 - Present
 - Developed communication, multitasking, and problem-solving skills.
 - Able to work effectively under pressure in demanding environments.
